Our Success Stories

Wellness Connection's has more success's than we can count. We are very excited to have started new groups that help members set and reflect on current and future goals. We make time to discuss and celebrate those great successes members have. Some successes members have had over the past month include:

Andrew C (SV): 22 days sober

Deandre N (Saff): Facing Up class and sign up for Karate class

Walter C (SV): Received Culinary Certification & Completed probation successfully

Mara M (SV): Cut down on smoking and dealing with depression in a healthy, affective way

Josh C (Saff): Got a side job where he works three days a week

Chris (SV): Another day clean and sober

Lona S (SV): Cut down on smoking; back on her feet working as a care giver for an elderly woman and attending

Wellness Connections after being very ill

Nancy C & Paul C (Saff): No longer homeless and Nancy got a new walker

Darla B (SV): New dental work and "Loving myself!"

Margie (Saff): Got out of an abusive situation at home

Susan S (SV): Rabies shots for her dogs

Natalie M (SV): Regularly spending time at Wellness Connection Sierra Vista

These are just a few of the great success stories from Wellness Connections. Come join us and share your successes with us.

Albert Regain Comes Home

Albert Regain has returned "home" after many years providing services around the county. Albert started out as a driver at Sierra Vista Wellness Connections, then known as "The Comfort Zone." Within six months Albert "reluctantly" took the Program Coordinator position. Albert was instrumental in starting Mobile Wellness Connections which used to be called The MORE Program. When Albert left SEACRS's employ he was acting Program Manager of both the Comfort Zone and MORE Program. I asked Albert what motivated him to work in the behavioral health field and he said, "It happened by accident or fate, as some would say." While Albert was in rehab he started answering

phones, assisting on HOPE, Inc's warmline, and doing ASH (AZ State Hospital) visits. He said, "Never would I have dreamed it would lead to a career." Compass Health Care offered Albert a position as Office Specialist. Albert was "happy to get office experience" because he thought this would be his career. Albert had "second thoughts" about taking the job at The Comfort Zone in 2002 because he wasn't sure he wanted to stay in the

Safford Wellness Connections

Safford APPLIANCE
CONNECTION'S
Crew

APPLIANCE CONNECTIONS is the BIG news in Safford! Appliance Connections, a Safford Wellness Connection's project will ultimately result in their first Consumer Run Business. Appliances will be given or sold to Appliance Connections at a minimal price and then members, under the direction of Bill Sherlock, Safford Wellness Connection's Vocational Service/Site Manager, will restore the appliances to be sold in the community. Since December 2013, Appliance Connection's classes have

seen an average of 6 dedicated members. Classes run Tuesdays and Thursdays from 10:00am to 11:45am. Positions required to run a successful business have been structured. The group has designed forms including; Appliance Cleaning Checklists, Inventory, Receipts and other forms necessary for day to day business operations. Member's complete daily time cards and address at least one business related topic every group. Appliance Connections recently added a computer and large, flat screen television to

their inventory. The television was introduced with a YouTube video on electricity which was helpful and informative and "everyone loved it!"

Safford started a new cooking class led by Brandi, Program Coordinator. During their first group, members learned to make loaves of bread. Word is, "It was messy, but fun!" Members were able to knead the dough and shape it for placement in the loaf pans. After the bread cooked, members took their own loaves home to enjoy.

"New employees
are everywhere at
Wellness
Connections ..."

New Employees

New employees are everywhere at Wellness Connections, especially at the Sierra Vista location. With the start of several new programs and more focus being placed on existing programs there has really been a BOOM of new hires. I asked some of the new employees to answer or comment on three questions. 1) Tell me about yourself in two sentences or less. 2) What

inspires you? 3) What motivated you to seek employment in the behavior health field? Here are a few answers: **Scott May, Sierra Vista Wellness Connection's Re-Entry Specialist** has lived in Sierra Vista since 1978. He said, "Grew up here, got in trouble here and got clean here." Scott is one of two Re-Entry Specialists at Wellness Connections. Scott's passion; "This work is

near and dear to my heart as I was in this situation before so I know where and how help is needed." Scott's hope is to reduce the recidivism rate in Cochise County. **Bill Sherlock, Safford Wellness Connection's Vocational Services & Site Manager** has lived in Safford since 1994 with his wife of 35 years and his daughter who recently graduated, with honors, from

Health Corner ~ CFS

According to the Center for Disease Control, CFS also known as Chronic Fatigue Syndrome is a "debilitating, complex disorder characterized by intense fatigue not improved by bed rest and may worsen with physical activity or mental exertion." No cause for CFS has been identified and there are no conclusive testing procedures available. People with CFS generally function at a

lower level of activity than what they did before becoming ill.

In order to be "diagnosed" with CFS there are three required criteria. (1) The person has had severe and chronic fatigue for six or more consecutive months not due to ongoing exertion or other medical condition associated with fatigue. (2) The fatigue significantly interferes with everyday

living. (3) There are 4 or more of these 8 symptoms: post-exertion condition lasting more than 24 hours; unrefreshing sleep; significant short-term memory impairment; muscle pain; pain in joints without swelling/redness; headaches of a new type, pattern or severity; tender lymph nodes in neck or armpit; frequent, recurring sore throat.

For more information on CFS go to <http://www.cdc.gov/cfs/>

Mobile Wellness Connections

Benson Group

Mobile Wellness Connections has much to be excited about!

Preparations for the new center based program, Douglas Wellness Connections, are underway and talk of the center results in more and more excitement from Douglas members. We are so excited that

Candace Weingart has accepted the position as Program Manager of the Douglas location. The transition will begin at the beginning of April, tentatively. This process will be bittersweet for Mobile Wellness Connection's staff and members. Mobile Wellness Connection's staff have been working with the same core group in Douglas for over eight years. Current staff have been with this group for up to 7 years. After all that time, Douglas members and the Mobile staff have

become like family. But the time has come to move forward and staff couldn't be more excited!

Benson keeps right on moving forward with new members coming to the group nearly every couple of months. Plans for some exciting events are in the works. If you live in Benson, St. David, Pomerene or Tombstone and would like to attend the program, please call (520) 559-5672.

Douglas Group

New Employees - Continued

U of A, Tucson. Bill, who has been working with people who have substance use histories for over 22 years, is inspired by "people with disabilities doing life without complaining...I love helping people become better!" **Ron Fruchey, Sierra Vista Wellness Veteran's Support Coordinator** is a ten year veteran of the Army. He has been "in various countries and through various different situation in life." Ron said he, "strives to learn as much as I can about helping myself so I may be able to help others." As to his inspiration, Ron said, "Life inspires me. Everything about it. It is a beautiful and precious thing that too many people take for granted and do nothing with." Ron enjoys trying new things and experiencing what life has to offer. Because Ron knows there are others who have been through the same things he has and knows not all of them know how to deal with their experiences, he feels it's his

"duty in life" to assist others "to overcome obstacles and aid them in obtaining a higher appreciation of life." **Mike Oswalt, Veteran's Peer Support Specialist**, who started out as a driver for Sierra Wellness Connections is also a veteran and is currently "back" in school while supporting his wife who is expecting their baby. Mike's inspiration is his family, "both my new family and those who have been there forever." **Derrick Seawood, Sierra Vista Wellness Connection's Re-Entry Specialist** was born in Gary, Indiana, and is the youngest of five children. He relocated to Arizona in 2012. Derrick attends Jerusalem Community Church, where he serves as an Elder, a Youth Administrator, Sunday School Teacher and is Outreach Minister to Mary's Mission. Derrick is also very involved in the community where he serves on the Executive Board for the Re-Entry Coalition. Derrick's passion;

"Coming from a place of incarceration and having an understanding of the barriers for one such as this, I just want to assist in the navigation of things." Derrick chose behavioral health as a career because, "Having succeeded and being filled with the hope that my story can encourage, inspire and strengthen others."

Wellness Connection's is so pleased with those we've recently hired. As a company we are excited about all the possibilities coming about as the result of these new, awesome individuals.

When adding the new staff to the existing really incredible staff, we are confident in our ability to provide the absolute BEST peer support around.

**A few new employees
Scott, Lorri, Ron &
Derrick**

Sierra Vista Wellness Connections

SIERRA VISTA
CREW

Sierra Vista Wellness Connections has begun implementing the Eight Dimensions of Wellness as defined by SAMHSA, Substance Abuse and Mental Health Services Administration. Starting this month our groups are tailored to include these eight dimensions

which included areas like financial, spiritual, emotional and occupational. Groups based on these dimensions have been

added to our every expanding calendar.

We are also offering Culinary training classes which begin March 3rd through the 6th and March 12th through the 14th, with testing at the completions of the training on the 14th. Additionally, P.E.T. (Peer Employment Training) will be offered to individuals interested in pursuing a career in peer support services. Those classes begin on March 24th and run through the 31st and April 1st,

2nd and 7th through the 9th.

There is a mandatory orientation that will take place on the 7th or 17th of March.

In other news, our Re-Entry Coalition has begun outreach in the community. We are working to establish relationships with the Parole/ Probation departments in order to fortify our place in this community as a resource for individuals being released from incarceration.

“The settlement (Arnold v Sans) allows for the provision of community-based services and programs...”

In the News - Arnold v Sarns

On January 8th, 2014, an agreement was reached in a case beginning over 30 years ago, Arnold v. Sarn. The lawsuit was filed in Maricopa County for residents with a classification of Seriously Mentally Ill (SMI) who wanted a state law that would provide continued care. The settlement allows for the provision of community-based services and programs such as supported employment, crisis services,

housing support, assertive community treatment, life skills training and family and peer support. Respite care services will also be available. Key elements of the settlement include:

Assertive Community Treatment (ACT) teams providing crisis services and 24-hour case and medication management. Eight ACT teams will be established.

Supported Housing to help

actualize that housing is health care.

Supported Employment to help up to 750 people find and maintain local employment.

Peer and Family Support Services to help up to 1,500 peers and families as they deal with SMI challenges.

An annual assessment will be conducted to determine progress of the elements of the settlement.

Wellness Connection's Re-Entry

Wellness Connections has dedicated two recently hired peer support specialists as “Re-Entry Program Specialists” at their Sierra Vista site. The Re-Entry Program is being developed by Derrick Seawood and Scott May. These two gentlemen have the background and knowledge to create an outstanding program. The goal of

Wellness Connection's Re-Entry Program is to provide assistance to members who are in the transition phase from jail/prison/felony conviction to main stream society. The objective is to use local resources, outsourcing when necessary, in order to make the transition as seamless as possible. Our Re-Entry Special-

ists will provide assistance in moving around barriers that may be a result of having been incarcerated and/or convicted of a felony offense. A collective effort is being made between the Re-Entry Program and Wellness Connection's own Outreach Program's Annick Price.

Albert Regain Comes Home ~ continued

field. Now here he is 13 years later back with this organization. Albert who described himself as a “loving father” and “devoted husband” gives God the glory for the blessings in his life. I asked Albert to tell us a little about what inspires him. He said, “Seeing people recover and achieve their potential. My

wife and kids are a major inspiration to me. Watching my kids grow up is amazing and I know my wife will always be by my side. They drive me to be a better person. Finally and most important is my faith in Jesus whom has impacted me the most. Becoming a “Christian” has helped me understand the

term “dry drunk.” As the new Training Coordinator and Peer Navigator, Albert hopes to “Help people become successful.” Albert knows what it takes to run a successful program with many resources and much to offer the staff and members at Wellness Connections.

Albert Regain

Wellness Connection's Mobile Program, formerly known as the MORE Program (Mobile Outreach for Recovery Empowerment) was established in 2004. The purpose of the program is to start peer-run programs in areas outlying from Sierra Vista with a final goal of establishing permanent sites in those areas. Mobile Wellness Connections did just this in Safford where Sierra Vista's first sister site is located. The mobile program has been going to Douglas since it's inception and a second sister site, Douglas, is in the development stage. Douglas Wellness Connections should be up and running well before 2015 arrives. Other locations the mobile program provides services to include Benson, Tombstone, St. David and Bisbee. Mobile Wellness Connections interested in establishing a site in Willcox and/or Patagonia & Sonoita. We are open to suggestions from the community about other location possibilities.

Wellness Connections' Mission Statement & Overview

Mission Statement

"Wellness Connections is committed to providing peer-led, life-enhancing opportunities for mental health recovery and wellness."

Overview

Wellness Connections has provided behavioral health and addiction recovery services based on a peer-led model since February 2002. Wellness Connections maintains a qualified staff of Recovery Support Specialist, Peer Support Specialist and Behavior Health Technicians.

The expected outcome for all Wellness Connections' program members is a significantly improved quality of life. Funding is provided through contracts with Cenpatico, the Department of Veteran's Affairs, Bridgeway and the DES Department of Vocational Rehabilitation. Fundraising and grant funding are also pursued in support of Wellness Connections' mission.

Wellness Connections is a 501(c)3 tax-exempt non-profit organization.

Your gifts and donations are tax-deductible!
